

**Physics 100L**  
Spring 2009      University of Hawaii at Manoa  
Meeting Time:   Monday or Friday 2:30PM-5:20PM

TA:     **Jake Lucas**  
Email: [jalucas@hawaii.edu](mailto:jalucas@hawaii.edu)  
Office: Watanabe Hall, Room 431  
Office Hours: TBA

**Required Materials:** **Physics 100L Lab Manual**, Scientific Calculator, Pencil, Graph Paper

**Grades:**

Curved. Includes both labs and quizzes.

**Lab Worksheets:**

All experiments must be performed and every lab report must be turned in to *pass* this course. All lab reports are due at the beginning of the following lab period. Late lab reports will be penalized with the following deductions:

15% - up to one week late

30% - up to two weeks late

45% - up to three weeks late

Any reports turned in more than 3 weeks late will not receive credit.

**Missed Labs:**

If you know you will miss a lab, please contact me as soon as possible! I STRONGLY suggest attending all of the labs, as it makes life easier for both of us. Due to problems in previous semesters, each student is allowed to make up only one lab. An additional class will be held at the end of the semester, any student who has missed a lab will need to attend this class and make up said lab. There are only 10 labs during the semester, missing more than one lab makes it impossible to get an A, missing more than two labs makes a C your highest achievable grade.

**Quizzes:**

You will be given quizzes throughout the semester. Each quiz will be based primarily on the previous week's lab, but questions pertaining to the present week's lab may be given.

**Academic Dishonesty:**

Cheating of any kind is not tolerated by the University of Hawaii and severe consequences will be imposed. Cheating can consist of sharing answers during quizzes, copying the written work of others and intentionally falsifying experimental data.
