HMB (coming attractions)

1. Interest in use case for EIC development (next Monday)

2. Summer coming, and so push to get Scint block and Calorimeter integrated soon (as well as testing with MA-PMT of EIC readout before have to return PMT in June)

3. Summer Intern (Maya) will join June 21

4. Plan to have 3pm sessions on HMB/technology related [Coffee & Techniques reboot]
   - Some standard ones (e.g. simple mechanical design, 3D printing)
   - Each should plan to talk on what they’ve been working on
   - Final presentation will be on the Event Display (summer project)
   - Encourage you to suggest.
