

TOP electronics space

- Electronics module for beam test

Previous design study

However, we need

- Additional HV board stack
 - Front-middle board?
- Window space to check the contact between PMT and expansion block

TOP electronics space

- Our best guess...
 - A=130
 - B=140

A	B	C
77	95	780
110	115	760
130	135	740

Backward IDS and QBB detail : Scale 1/2
