PCB design status (carrier revE)
boardstack cooling (carrier revE)
PCB fabrication / assembly

- SCROD revB:
  - currently have 11 assembled boards (on my desk)
  - need power, cat7 cables made, soldered

- carrier revE:
  - design should be done by the end of next week
  - fabrication would then start the week of Nov. 10th
  - assembled boards would be back by the first week of Dec.
  - pogo pin soldering would commence and the boards would be ready to go to KEK before the end of that week
schedule

- outstanding issues:
  - boardstack spacers (need types 1 and 2)
  - pogo pin soldering jig:
    - needs redesign/modification
